April 10, 2022

To whom it may concern,

I am writing this letter confirm that Keshav Bagari has successfully completed a remote study program under my supervision during 2021 and early 2022. The project involved analyzing data generated on our driver-in-the-loop simulator at the Center for Automotive Research at The Ohio State University ([Driving Dynamics Lab | Automotive Research \(osu.edu\)](http://DrivingDynamicsLab|AutomotiveResearch.osu.edu)). In addition to working with me, Keshav interacted remotely with graduate students in the Driving Dynamics Lab. After completing background research and reading, Keshav created MATLAB based analysis of our test data and wrote reports documenting his work.

Sincerely,

Jeffrey P. Chrstos, PhD

Research Scientist, Formula SAE Team Advisor

Technical Specialist: Chassis/Vehicle Dynamics

Mechanical and Aerospace Engineering
